

Market surveillance

Published: 13.04.2021.

The Market surveillance and regulation part of the State Railway Administration shall organise and manage supervision of the rail freight market, as well as develop proposals to promote competition, necessary changes or additions to regulatory enactments.

Monitoring of independence requirements

In accordance with Section 13.1, Paragraph 5, Clause 4 of the Railway Law, the State Railway Administration shall publish a report of the performer of the essential functions of the railway infrastructure manager regarding the measures taken in ensuring the requirements of independence.

Opinions adopted in the monitoring of independence requirements

In accordance with the requirements of the Railway Law, the State Railway Administration shall publish decisions and opinions determining the regulation of the railway market.
